

ASSIGNMENT SHEET

DESN 240 – Advanced Digital Imaging

Batch Processing Exercise

Part 1:

1. Set up a new Set and Action in the Actions Panel. Begin recording.
2. Open one of the images from the *"240-Actions Exercise"* folder. Change the image size to 6" x 4.5" @ 150 ppi. Duplicate the background layer and change the color of the flower to a vivid purple, while leaving butterfly the original color. Stop recording action. Close the file without saving.
3. In Bridge, choose the Batch option from the Photroshop submenu in the Tools menu. Set the new action to play. In destination, choose a new folder and create a new folder named *"Purple Flowers-Your Name"* in your *"240-Your Name"* in the *"Documents"* folder. Close the file. Click OK.
4. Check the new folder to verify that the altered images are in the folder and are the correct size.
5. Rename all files in the following format: *"Your Name_PurpleFlower_01"* and numbered in sequence.

Part 2:

1. In Bridge, find the folder *"240-Your Name"* and create a PDF contact sheet of the images you just created with the following settings.
 - All images fit on one page in three columns.
 - Images are labeled
 - 150 ppi, maximum quality
 - No cell spacing
 - 1 cm margins
 - Header aligned left with *"Butterfly Gallery"* name – Ariel Bold 24 pt.
 - Footer aligned left with *"Copyright Your Name"* – Ariel Reg. 12 pt.
 - Watermark on each image – *"COPYRIGHT"* – Avneir Next Condensed Bold 24 pt, centered with 30% opacity
2. Save your PDF file in your *"240-Your Name"* Folder with the name *"Your Name Butterfly Contact Sheet."*
3. Upload the zipped folder to your cloud account and send a shared link to rwise@viknu.edu.
