

ASSIGNMENT SHEET

DESN 205 – Design for Electronic Media

DREAMWEAVER EXERCISE – PART 1

ASSIGNMENT:

Practice using Dreamweaver tools and techniques to create a simple web page.

PROCESS:

1. Download the site files from the class website and expand the files into your class folder. Add your name to the folder name (Yosemite-Your Name).
2. Create a new site in Dreamweaver. Name it Yosemite and choose the new folder for your site folder.
3. Create a new document and save it in your site folder with the name design.html.
4. Create a new external CSS file and save it in your site folder with the name master.css.
5. Follow the instructions provided to setup the page in HTML and CSS.
6. Save the page when finished.
